MEMORANDUM FOR MR. BUNDY

In a conversation with Harry Power, Col. H. Armstrong, also
WUSA, and Henry Kissinger, on Friday, I discussed the initial
response of the Joint Chiefs to the return of military plans in con-
nection with the Berlin crisis. It is clear that the "general
plan" which the JCS discussed is entirely consistent with the plan with
all our nuclear forces envisioned in SIOP II.

The planning for several alternative limited target lists which
might be relevant to the Berlin crisis has not begun. Rowen is drafting
a request for such planning, a copy of which I expect to receive, but
I think this should be considered as an urgent matter at higher levels.
